GARAGE & WORKSHOP EPOXY

SHIMICOAT's Garage and Workshop Tinted Epoxy is resistant to hot tyre pick up and ideally suited to garages, workshops and high traffic floors. The Garage & Workshop Epoxy is available in many colours and finishing systems which are long lasting, decorative and functional with a slip resistant safety option. The system can be used for *Prior to Coat* installations such as coving and screeding as well as other surface preparation procedures. Flexi Mortar Epoxy can be used to fill the cracks, grooves and old control joints.

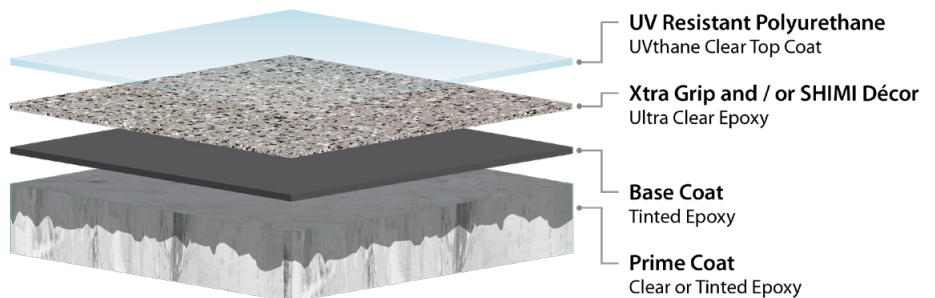

Manufactured by SHIMICOAT, the products are odourless, self-levelling, easy to apply and engineered to be ideally suited to Australian conditions.
